Art Unit: 1743

1. Claims 1-3, 24-26, 28 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. There is no support in the specification as filed for the negative limitation "undivided". The examiner notes that the text referred to by applicant in support of this limitation recites "a substantially cylindrical capillary" (p. 6, line 16), but makes no mention that the capillary is "undivided".

2. The following claim amendments drafted by the examiner and considered to distinguish patentably over the art of record in this application, are presented to applicant for consideration:

In claim 1, line 2, delete "undivided".

In claim 24, line 4, delete "undivided".

3. The following is a statement of reasons for the indication of allowable subject matter: In addition to applicant's arguments, the examiner notes that with respect to WO 97/48557, the embodiment that applicant refers to as "divided" has a constriction (or narrowing) at channel 108, and thus the limitation to a non-constricted chamber is sufficient to overcome the reference. With respect to Iwasaki, the embodiment of Figure 4 is narrowed or constricted in the region surrounded by actuator 2, and in the embodiment of Fig. 2, the actuators 1, 2 are equidistant from the orifice.

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

Art Unit: 1743

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
